## START Program

## 2019 Annual PREA Review

---

The Sanction Treatment Assessment Revocation and Transition (START) Program posts an annual report of PREA investigations and outcomes.

As a requirement and at least on an annual basis, the START management team, including the PREA Coordinator from the corporate office, will meet and review the staffing plan for an adequate level of staffing and video monitoring to protect offenders against sexual abuse and sexual harassment. The review includes the physical layout of the facility, population, substantiated and unsubstantiated incidents of sexual abuse and sexual harassment and any other relevant factors.

START staff receives annual training on PREA. Our training curriculum includes Transgender and Cross-Gender pat searches, various PREA power points from the PREA Resource Center website, and PREA policies review. START Specialized services such as Mental Health, Medical and Investigative staff have all received specialized PREA training from the NIC website.

START trains all contractors, volunteers and visitors on PREA as stated per PREA training policy.

START had its first federal PREA audit conducted in November of 2016. The facility was found to have exceeded 1 standard, met and/or complied with 37 standards, and had one corrective action to complete. START was found 100% compliant on January 5, 2017. The facility's second federal PREA audit was conducted in November of 2018. START was found to have exceeded 4 standards, met or complied with 37 standards with two corrective actions to complete. The two corrective actions were completed well within the given timeline and the START facility was found 100% compliant on February 27, 2019.

**Offender allegations made towards offenders for the year of 2019:**

Sexual Abuse	(0) Unsubstantiated	(0) Substantiated	(1) Unfounded
Sexual Harassment	(0) Unsubstantiated	(0) Substantiated	(0) Unfounded

## Data Comparison

In 2017 and 2018 there was a total of 11 allegations investigated that resulted in 3 unsubstantiated, 6 unfounded, and 2 substantiated instances. While comparing the data of the previous years against 2019, the number of PREA reports is down. There were no allegations made against staff at all, showing that staff are well trained and knowledgeable of policies and procedures. The one allegation of offender on offender sexual abuse was not made in good faith; however, the allegation was made to a third-party, showing offenders are well educated in the means to report and that all allegations are taken seriously and fully investigated. Each offender is made aware of START's zero-tolerance policy upon intake and have PREA education within 7 days of intake. START new employees are educated in PREA and read all PREA policies before ever having contact with the offenders.

Please allow the above-mentioned information to serve as the START Program's annual review for 2019. These numbers are reviewed annually in order to assess and improve the effectiveness of START's zero-tolerance sexual abuse and sexual harassment policies.
